

Welcome to Listen2

This is a sample PDF document to help you test the text-to-speech functionality.

Listen2 can read PDF and EPUB files aloud, making it easy to consume written content through audio. This sample demonstrates how the app processes and reads PDF documents.

Key Features:

- Import PDF and EPUB files
- Natural text-to-speech with Piper voices
- Adjustable reading speed and voice selection
- Track reading progress

Try importing your own documents to experience the full capabilities of Listen2!
